

PHILIP MWENDWA.

OBJECTIVE Having worked at Microsoft 4Afrika, a company whose focus is to create software solutions for the immediate society, I came to master software skills like systems development using MVC, version control using Git, just to mention a few. My goal now is to obtain a fulltime position in an Organization that offers possibilities in career advancement particularly in Software Engineer.

EDUCATION (Sept 2012 – June 2016) **JOMO KENYATTA UNIVERSITY OF AGRICULTURE AND TECHNOLOGY**
Studied a degree in Computer Technology

CERTIFICATIONS

Date	Institution	Title
Jan – August 2012	Jomo Kenyatta University	Business Information Technology
July – Dec 2013	Memon College	Java Computer Programming
April – May 2017	Jomo Kenyatta University	Big Data Developer

SKILLS Software development using JavaScript, PHP, TypeScript, HTML, SQL, Azure and CSS.
Software debugging.
Can manage time effectively.
Adaptive Learner.

WORK HISTORY **MICROSOFT 4AFRIKA – SYSTEM DEVELOPER APPRENTICE (DECEMBER 2018 – MAY 2019)**

Established myself as a competent software engineer by designing, documenting and deploying a Web and Mobile application for Kisborana Sacco using Microsoft Kaizala, PHP and CodeIgniter as the main framework. Successfully created and integrated APIs. Partnered with fellow engineers in creating webservices using JavaScript. Managed software projects using version control with Git.

ROCKEY AFRICA – SYSTEM ADMINISTRATOR (JULY 2016 – AUGUST 2018)

Successfully developed and maintained the company's budget system using typescript and Angular as the main framework. Delivered a robust and reliable computer network infrastructure. Implemented approved security systems procedures.
